

The Art of
Alpine Luxury.

7132

What is luxury?

Is luxury simply having more of everything that makes life more pleasurable? For us, luxury means having the right amount of everything at precisely the right time. Having every unspoken wish come true. This is the kind of luxury you can expect at the 7132 Hotel. Experience such luxury in relaxed surroundings accompanied by our undivided attention. Experience the 7132 Hotel.

Suites redefined.

Japanese architect Kengo Kuma has designed our suites. Naturally unique. Naturally including a king-size bed, free mini bar, a bottle of Champagne and canapés on arrival.

7132 Hotel *****

Luxury is time.

Enjoy something very precious: time for yourself. In a place where you can be entirely yourself. Our hotel offers everything you need to have the most wonderful time. Such a shame that you can't sleep with open eyes to enjoy the true beauty of our suites for even longer.

Luxury is simple.

The hotel's helicopter will bring you to and from anywhere in Switzerland. The pilot will also be happy to take you on a tour of the magnificent mountain landscape of Graubünden. Our limousines give you the flexibility you need. Limousine or helicopter transfer is included for guests staying in the Penthouse-Suites.

Luxury is beautiful.

Our rooms don't just have numbers. They are named after the architects who designed them: Ando, Kuma, Mayne and Zumthor. Each room is as unique as its designer and has its own unique style. Prepare yourself for an unexpected feeling of bliss and allow your curiosity to play a part in choosing your room.

Ando

Kengo Kuma

Japanese architect. Inspired by the finesse of Japanese carpentry. Rooms designed by Kuma are like wooden cocoons, creating the feeling of a warm embrace on entering.

Kuma

Tadao Ando

Japanese architect and Pritzker prizewinner. Rooms reminiscent of the subtle aesthetics of Japanese teahouses. A sense of spaciousness where space is limited, accentuated by exceptional materials.

Thom Mayne

American architect and Pritzker prizewinner. Rooms clad entirely with Vals quartzite or wood, and breaking all conventions. The manipulation of space, lighting and surfaces creates an exceptional atmosphere.

Mayne 'Stone'

Mayne 'Wood'

Zumthor

Peter Zumthor

Swiss architect and Pritzker prizewinner. A fascinating play of colours conveyed through the intensity of unconventionally arranged rooms. Stucco lustro, a plasterwork technique of the Italian Renaissance, creates a beautifully light effect.

Luxury is surprising.

Variety, with the sole intention of creating a sense of having made the right choice. Three unique restaurants offering unique cuisine. Plus a bar with live jazz, played on a Steinway grand piano.

7132 Silver

Wild herbs, forest berries and mushrooms, hand-picked from the Vals region. Accompanied by products from selected, local suppliers. Combined with the best ingredients from around the world. Welcome to the kitchen of Head Chef Sven Wassmer. Here you will find a playful combination of what may at first seem rather surprising.

A journey of discovery awaits in the Silver, led by Sven Wassmer. Every mouthwatering experience is filled with unforgettable moments of finesse. Embellished with exquisite wines chosen by Head Sommelier Amanda Wassmer Bulgin.

7132 Red

7132 Red

The Red turns culinary dreams into à la carte reality. Chef Ulf Bladt and his team transform classic dishes into revelations. Naturally, using only fresh ingredients.

 'Discovery of the Year 2016'

DaPapà

Pizza, pasta and salumi – true Italian-style hospitality. Everyone feels well looked after by Cesare in such a relaxed atmosphere. Simply molto bene!

7132 Blue

The bar for a snack, afternoon tea, an apéritif or digestif. The place to celebrate the day or quietly bring it to a close.

Luxury is healthy.

Give your body the treatment it deserves and add in a little extra for the soul – in one of the best thermal baths in the world and with a spa package that leaves nothing to be desired.

The 7132 Therme – a masterpiece of relaxation.

Architect Peter Zumthor has created a masterpiece, built from 60,000 slabs of Vals quartzite. The mystical atmosphere and highly mineralised warm water that comes out of St. Peter's spring at a pleasant 30° Celsius makes the time you spend in the Therme a deeply relaxing experience.

7132 Therme

ESPA treatment

Our spa offers a range of treatments and ESPA products. The strength and therapeutic effect of the products lies in their natural ingredients. Essential oils and stimulating marine extracts ensure pleasurable experiences and visible results.

Luxury is real.

A mountain village with 1,000 inhabitants, far removed from its hectic and ever-changing surroundings, with magnificent mountain scenery all around – welcome to Vals.

Besides the world-famous mineral water and Vals quartzite, nature created something else of which the people of Vals can be proud: their hospitality. Take a walk through the village and be inspired by the warm and friendly nature of its people.
